# CONCEPT

---

The 5th NEXUS Europe Summit will convene on April 24 – 26, 2018 bringing together 150 NextGen business leaders, young philanthropists, impact investors, and globally focussed allies – including successful social entrepreneurs, and inspiring social change leaders.

The Summit purpose is to Accelerate your Impact! With the sub-themes: Transformational Solutions and Next Gen Leadership.

Sessions will also cover a range of social and environmental issues, ranging from poverty, human trafficking, arts, equal rights, refugees, etc.

We will connect the financial, intellectual, creative and social capital of our generation in an action-oriented, solutions- focused Safe Space.

Expect a dynamic, varied, and interactive program of plenaries, workshops, break-out sessions, and themed lunches and dinners.

We will explore how cities and exponential technology can be platforms for system change, the challenges of wealth stewardship, family dynamics, living an impactful life, and finding your purpose.

## ACCELERATE YOUR IMPACT!

NEXUS Europe's Mission is to empower our members to realize their full potential: to lead using our resources, talents, and family businesses as a Force For Good.

We achieve this through providing high-level inspiration, active collaboration opportunities, and a carefully selected network of peers and partners with the goal of creating a platform for growth —peer support for your impact and purpose journey as well as your leadership skills development.
